DRAWING

Having behind us the producing masses of this nation and the world, supported by the commercial interests, the laboring interests, and the toilers everywhere, we will answer their demand for a gold standard by saying to them: "You shall not press down upon the brow of labor this crown of thorns; you shall not crucify mankind upon a cross of gold."

THE REAL ISSUE

I do not know what you think about it, but I believe it is a good deal better to open up the mills of the United States to the labor of America than to open up the mints of the United States to the silver of the World.
